EDITOR'S DESK

Dear Readers,

Greetings from AIC Jyothy Institute of Technology Foundation!

As one of the leading incubators under the Atal Innovation Mission, AIC-JITF has helped over 70 startups come into being. Would they have, without us? We don't know. What we know is that every single one is tasting success, though in various degrees. We get our kicks from exactly that: the progress the startups under our care make with their products or services, the product-market fit they achieve, and the eventual market acceptance that comes with it. These are small, but significant milestones that they cross. And they are very liberal and large-hearted to credit their success to us, though we know it very well that they owe it to themselves.

At AIC JITF young entrepreneurs are experiencing a startup ecosystem like nowhere else. Where the right interventions at the right time, make a world of difference to fledgling startups. AIC JITF is the platform where ordinary people achieve extraordinary results. I wish all the incubatees onboard a successful entrepreneurial journey.

With warm regards,

Dr. Anantha Prasad M. G.
